

Stage 2 – Verification Test for Existing Programmes in Banner

Technological University Dublin

1 Scope and Purpose

This page covers the **Stage 2 – Verification Test for Existing Programmes in Banner**. Use it to confirm that each programme already listed in the Banner baseline is correctly configured and aligned with Akari. The companion page, *Stage 2 – Verification Test for Missing Programmes*, is used when a programme exists locally but is *not* present in Banner.

2 Before You Start (Required Check)

1. Locate your programme in the *Existing Programmes* verification sheet (Banner baseline).
2. Have Akari open while completing the checks, so you can cross-verify modules and assessments.
3. Only update the VC1-12 column within the sheet in **VC12 – Comment**.

3 How the Spreadsheet Works

All data are entered in a shared spreadsheet hosted on SharePoint (accessible through Teams or the provided link).

- One row per programme already present in Banner.
- Identification fields from Banner are provided for context and must **not** be edited.
- Complete the **VC1–VC12** verification columns using the dropdowns provided.
- If a question does not cover a specific issue, use **VC12 – Comment** to describe it. A follow-up may be requested.
- Edits are autosaved; SharePoint keeps version history.

4 Exact Column Titles (in the test spreadsheet)

Use *exactly* the following titles. Each item shows the **input type** and instructions for completion.

Identification Fields (from Banner)

School Responsible (Banner)

Read-only (pre-populated) – School assigned in Banner. If incorrect, do *not* edit here; set **VC1 = No** and explain in **VC12 – Comment**.

Active/Inactive Status (Banner)

Read-only (pre-populated) – Banner activity flag. If misaligned with current reality, set **VC2 = No** and explain in **VC12**.

TU Programme Code (Banner)

Read-only (pre-populated) – e.g. TU388. If wrong, describe the correct code in **VC12**.

Programme Title (Banner)

Read-only (pre-populated) – official Banner title. If wrong, set **VC4 = No** and provide the correct title in **VC12**.

Verification Checks (VC1–VC12)**VC1 – Programme assigned to correct School**

Dropdown – values: **Yes**, **No**. Select **Yes** if the Banner School is correct; otherwise **No** and describe the correct School in **VC12**.

VC2 – Active/Inactive state correct

Dropdown – values: **Yes**, **No**. Select **Yes** if the Banner activity status matches the School's current situation (treat as *Active* if the programme is running this academic year); otherwise **No** and explain in **VC12**.

VC3 – Requires January 2026 board

Dropdown – values: **Yes**, **No**. Select **Yes** if any progression or award decision is needed in January 2026; otherwise **No**. If uncertain, explain in **VC12**.

VC4 – Programme title correct

Dropdown – values: **Yes**, **No**. Select **Yes** if the Banner title is correct; otherwise **No** and provide the correct title in **VC12**.

VC5 – Delivery Mode

Dropdown – values: **FT**, **PT**, **Apprenticeship**. Choose the current approved delivery mode. If unsure, note details in **VC12**.

VC6 – If FT, equivalent PT exists

Dropdown – values: **Yes**, **No**, **N.A.**. Select:

- **Yes** – if a PT equivalent exists for this FT programme.
- **No** – if no PT equivalent exists.
- **N.A.** – if the programme is not FT (e.g. it is PT or Apprenticeship).

If unsure, explain in **VC12**.

VC7 – Semester 1 modules correct in AKARI

Dropdown – values: **Yes**, **No**, **N.A.**. Select:

- **Yes** – all Semester 1 modules are present and correct in Akari.
- **No** – at least one Semester 1 module is missing or incorrect.
- **N.A.** – the programme does not run in Semester 1.

If unsure, explain in **VC12**.

VC8 – Semester 2 modules correct in AKARI

Dropdown – values: **Yes**, **No**, **N.A.**. Select:

- **Yes** – all Semester 2 modules are present and correct in Akari.
- **No** – at least one Semester 2 module is missing or incorrect.
- **N.A.** – the programme does not run in Semester 2.

If unsure, explain in **VC12**.

VC9 – Year-long modules correct in AKARI

Dropdown – values: **Yes**, **No**, **N.A.**. Select:

- **Yes** – all Year-long modules are correct in Akari.
- **No** – at least one Year-long module is missing or incorrect.
- **N.A.** – the programme has no Year-long modules.

If unsure, explain in **VC12**.

VC10 – Modules Assessments correct in AKARI

Dropdown – values: Yes, No. Select **Yes** only if assessment components and weightings (CA / Exam) match the approved configuration; otherwise **No**. If uncertain, record details in **VC12**.

VC11 – Programme Email Contact (just 1)

Email (free text) – one TU Dublin staff email for follow-up.

VC12 – Comment

Free text (multi-line) – required for any response marked No, N.A., or where uncertainty exists (e.g. suspected code/title issue, pending School decision). Use this field for any correction details to the read-only Banner columns.

5 How to Interpret the Columns

All verification items are defined in Section 4. Use this section as your live reference when completing the spreadsheet.

- Complete only the VC fields; do not alter the Banner identification cells.
- Use **N.A.** only where the structure does not apply (e.g. no S1, no S2, no Year-long modules, or VC6 not applicable).
- For any **No**, **N.A.**, or uncertainty, explain the reason in **VC12 – Comment**.
- Ensure **VC11** contains one valid TU Dublin staff email for follow-up.

6 Worked Example (Illustrative)

School Responsible (Banner): Conservatoire
Active/Inactive Status (Banner): ACTIVE
TU Programme Code (Banner): TU388
Programme Title (Banner): M.Mus (Performance/Conducting)
VC1 – Programme assigned to correct School: Yes
VC2 – Active/Inactive state correct: Yes
VC3 – Requires January 2026 board: No
VC4 – Programme title correct: Yes
VC5 – Delivery Mode: PT
VC6 – If FT, equivalent PT exists: N.A.
VC7 – Semester 1 modules correct in AKARI: Yes
VC8 – Semester 2 modules correct in AKARI: Yes
VC9 – Year-long modules correct in AKARI: N.A.
VC10 – Modules Assessments correct in AKARI: Yes
VC11 – Programme Email Contact (just 1): name.surname@tudublin.ie
VC12 – Comment: Title/code verified; no issues identified.

One row like the above confirms alignment between Banner and Akari and provides a single contact for follow-up.

7 Ambiguities and How to Resolve

When uncertain, always record the reasoning in **VC12 – Comment**.

Programme Status and Boards

- **Active vs Inactive:** Treat as **Active** if any students remain, including repeats.
- **January 2026 board:** Select **Yes** if any progression/award processing is required in January 2026.

Modules and Assessments (Akari)

- **S1/S2 vs Year-long:** Use **N.A.** if the structure does not apply (e.g. certain apprenticeships).
- **Name vs code mismatch:** If titles look right but codes differ, choose **No** and list the correct codes in **VC12**.

Re-streamed or Renamed Programmes

If merged or replaced under a new TU code, set **VC2/VC4** = **No** as appropriate and record the new code or title in **VC12**. If the active code has changed, also reflect this context in **VC3** where relevant.

8 Submission Checklist

Before confirming completion, ensure the following:

1. Each programme appears once only (no duplicate rows for the same TU code).
2. All **VC1–VC10** checks are completed; use *N.A.* only where appropriate.
3. **VC11** contains one valid staff email for follow-up.
4. **VC12** includes an explanation for every **No**, **N.A.**, or uncertainty, and any corrections to read-only Banner fields.
